Marshlands Primary School Knowledge Organiser	Drip, Drop, Splatter, Splash!	Key Stage 1

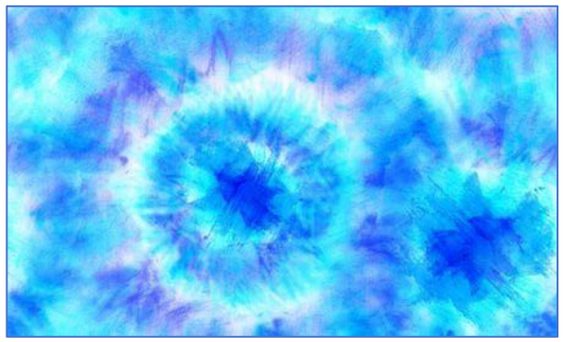

By the end of the unit, pupils will be able to answer…

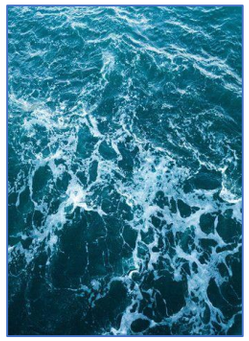

- What is similar/different between the work of Hockney and Hokusai?
- How can we make a colour lighter/darker?
- What are the names of the five oceans?
- What different landscapes can you find water in?

Vocabulary	Definition
oceans	a large area of sea
river	a flowing stream of water that feeds into an ocean, lake, pond or other river
sea	a large area of salt water
stream	a small narrow river
valley	a low part of land between hills or mountains
artist	someone who produces a piece of art
shades	the difference in brightness between colours
technique	a way of completing a piece of art
texture	how the surface of the art feels
tone	the brightness, deepness or hue of a colour

Location and Place

- The five oceans are the Arctic, Pacific, Atlantic, Southern and Indian.
- Key physical water features can be found locally, nationally and globally. The River Ouse runs through Old Goole, there are local natural fishing lakes, and the longest single drop waterfall in England is in Yorkshire!

Art Techniques

- **Mixing Colours:** to look at shades making colours lighter or darker
- **Tie-dying:** to produce patterned cloth using food colouring
- **Photography:** taking pictures to represent water features and to focus on different characteristics
- **Creating Texture:** Using paint to layer pictures to give it texture like various water features

Physical Geography

- The River Nile is the longest river in the world – 6,695km long
- 71% of the Earth's surface is water
- The tallest waterfall in the world is Angel Falls in Venezuela, which is 3,212 feet tall
